Receptive skills, reading and listening, are important skills that all students should master when learning a new language. They are important because they surround the world and can be used for purpose and entertainment. Keeping this in consideration, what is the purpose of receptive skills lessons? Teaching reading or listening comprehension is not testing comprehension.
Apr 01, 2018 · Since “learning vocabulary productively takes more time and effort than receptive learning” (Nation & Webb, 2011, p. 41), and since “learners need to engage in productive tasks for [productive vocabulary] to be developed; merely having receptive exposure does not seem to be enough to reliably lead to productive mastery” (Schmitt, 2008), participants performed better on receptive vocabulary knowledge tests. Similarly, when under productive learning conditions, participants scored better on productive vocabulary knowledge tests. Also, the difference between receptive learning and productive learning has been researched in L2 learning activities. Some reported that the words learned between receptive and productive vocabulary learning is available in our digital library an online access to it is set as public so you can get it instantly. Our books collection spans in multiple countries, allowing you to get the most less latency time to download any of our books like this one.

The Effects of Teaching on Vocabulary Knowledge: Receptive vs. Productive Kazumi AIZAWA, Natsue OCHIAI and Satsuki OSAKI 7bkyo Denki (Jhiversity Abstract The gap between receptive and productive vocabulary seems to increase with progress in learning.
